## The Law of Perpetual Transmutation of Energy

Substance can be transmuted, but it never can be destroyed. Substance is constantly going from a formless state to a physical state and back again. This is the progressive, creative operation of the Universe.

### Subsidiary Laws

**The Law of Thinking:** Thought, although invisible, is the mechanism of all creation and the source of all conditions in our lives. What we think, whether constructive or destructive, we create. There are no exceptions. Our minds are switching stations for creation.

**The Law of Heart:** Whatever we think about and hold in our heart, our subconscious mind, materializes.

**The Law of More Life:** Each of us was born with a Spiritual seed or DNA that has as its directive to grow and become the fullest expression of itself. Desire for more is the Universe's way of calling us forward into the actualization of our purpose.

“ All the supply there ever was, still is, and ever shall be, for nothing can ever be wasted or lost. There can never be a shortage of supply.

RAYMOND HOLLIWELL

“ As a person thinketh in their heart, so are they.” SOLOMON

“ Any idea that's held in the mind, that's emphasized, whether feared or revered, will begin at once to clothe itself in the most convenient and appropriate form available. ANDREW CARNEGIE'S PHILOSOPHY

## The Law of Vibration

Nothing in the Universe rests. Everything moves. Everything vibrates at a particular frequency, including ourselves. You can only become aware of things that are in harmonious vibration to you. Changing one's vibration changes what you become aware of. We know our vibration by how we are feeling and we can change our vibration by changing our thinking.

### Subsidiary Laws

**The Law of Attraction:** We attract and are magnetized to things that are vibrating at the same frequency. This includes but is not limited to ideas, opportunities, people, circumstances, thoughts, feelings, and material items.

**The Law of Subconscious Momentum:** Our beliefs, identity, self-image, double-binds, and loyalty packs are programmed into our subconscious mind, which will continue to run that program until it is identified and transformed. All subconscious programming is a cause set in motion.

**The Law of Praise:** What you praise and give thanks for in your heart increases. Praise in advance of receiving is an expression of faith and determines your capacity to receive. Gratitude, appreciation, giving thanks, and praise make you feel better and move you into a vibrational frequency that's in harmony with that which you are giving thanks for thus, increasing its presence in your life.

“

*Only when we cease to recognize a condition do we cease to attract it.*

RAYMOND HOLLIWELL

## The Law of Cause and Effect

Nothing happens by chance. Everything you experience in the world is an effect of a cause set in motion. Effects become causes of new effects in a train of causation. As 'first cause' everything you set in motion returns to you, the causal source, as a result.

### Subsidiary Laws

**The Law of Personal Responsibility:** We are 100% responsible for our results. Taking responsibility empowers you to put a new cause into effect.

**The Law of Sacrifice:** You have to give up something of a lower nature to receive something of a higher nature.

**The Law of Choice:** Your greatest power is your power to choose. You have been endowed with the ability to interrupt and redirect the train of causation through your power to choose new beliefs, thoughts, feelings, and actions.

**The Law of Compensation:** You are compensated according to the need for what you do, your ability to do it, and the difficulty there is in replacing you. In order to receive more and begin to draw yourself to something larger, you must become too large for your present place. You do that by solving bigger problems and being of greater service, increasing your capability and ability, and by owning your value, worth, and unique self-expression.

**The Law of Nature:** You have what you are.

“

*We reap what we sow.*

“ If you are not succeeding, if you lack any good thing, look more closely to the cause. It is not outside; it is somewhere within.

**RAYMOND HOLLIWELL**

“ Do the thing, and you shall have the power: but they who do not the thing, have not the power. **RALPH WALDO EMERSON**

“ The absolute balance of Give and Take, the doctrine that every thing has its price—and if that price is not paid, not that thing but something else is obtained, and that it is impossible to get any thing without its price [...]. **RALPH WALDO EMERSON**

“ The principle involved is that when you become too large for your present place you will begin to draw yourself to something larger; you cannot attract the better until you first become larger.

**RAYMOND HOLLIWELL**

## The Law of Polarity

Everything has two sides or poles that exist concurrently. Wealth/Poverty, Happy/Sad, Easy/Hard. These poles are two sides of the same thing and are equal and opposite. Both must exist in the same space as there are no halves in the Universe. You can't just have one side of a thing. Therefore whatever you're experiencing the corresponding opposite is here and it's here now.

### Subsidiary Laws

**The Law of Supply and Demand:** God/Source/Spirit/The Universe is our supply. The supply is here. You must be conscious of a need and you must make a demand on Supply for it manifest into your life.

**The Law of Reciprocity:** Giving is the First Law of receiving. Receiving has receiving as its correlative. If you wish to receive more, first give. Give more than you receive, give what you wish to receive, and give habitually. This is not the same as manipulation or being a martyr.

“ No mind can be conscious of a need or of a desire unless the possibility of its fulfillment exists. **RAYMOND HOLLIWELL**

“ Ask, and it shall be given you; seek and ye shall find; knock, and it shall be opened unto you. **MATTHEW 7:7**

## The Law of Relativity

Everything just is. We assign value and meaning through comparison.

### Subsidiary Laws

**The Law of Good:** Harvest the good in every situation. Dwell upon that which is good and it will come to pass.

**The Law of Non-Resistance:** Order is Heaven's first law. The Universe is an ordered place, operating for the good of the whole. "Falling out of heaven" is an indication that you are resisting the order of the Universe and the change being asked of you to grow and live out your 'more life' directive.

“*The degree to which a person can grow is in direct proportion to the amount of truth that he can accept about himself without running away.* LELAND VAL VAN DE WALL

“*When opportunity came, it appeared in a different form, and from a different direction than he had expected. That is one of the tricks of opportunity. It has a sly habit of slipping in by the back door, and often it comes disguised in the form of misfortune, or temporary defeat. Perhaps this is why so many fail to recognize opportunity.*

## The Law of Gender

The creative process requires both the masculine and feminine factor to beget, engender, and produce. The feminine principle is receptive, imaginative, and generative and corresponds to the subconscious mind. The masculine principle expresses, actively extending impressions, and is characterized by will. It corresponds to the conscious mind.

### Subsidiary Laws

**The Law of Gestation:** All seeds have a gestation or incubation period before they come into maturity. Goals and ideas are spiritual (non-physical) seeds with unknown gestation periods. This leaves open the possibility of both instant and delayed manifestation.

**The Law of Sexual Transmutation:** Sex energy is creative, life force energy. Use it to raise your vibration and to call in and create what you desire.

“

*Success is the progressive realization of a worthy ideal.* EARL NIGHTINGALE

“

*Faith is the trust, confidence, assurance by which to penetrate the invisible and to hold God's promises until they are realized in him and for him.* ROBERT A. RUSSELL

## The Law of Rhythm

Everything in the Universe is moving in and out, up and down, to and fro in a rhythm from pole to pole. This is true of everything, including our energy, mood, cash flow, focus, etc.

### Subsidiary Laws

**The Law of Neutralization:** To deny rhythmic influence over you, consciously choose to harmonize with what you want. Let the negative phase of the rhythm go past you by refusing to fuel it with unproductive energy and thinking.

“

*Use your will power to keep your mind off the subject of poverty, and to keep it fixed with faith and purpose on the vision that you want.*

WALLACE WATTLES

“

*The biggest obstacles to overcoming the odds is never challenging them.* PRICE PRITCHETT
